

CardValet®

Get the Mobile App that lets you control debit card usage and spending on the go. With CardValet, you can control your spending and protect yourself against fraud, all through a simple app on your phone. Download the app for iPhone or Android from the app store today.

Below are some of the benefits of CardValet:

- Turn your debit card on and off.
- Establish transaction controls for dollar amount limits, merchant categories and geographic locations.
- Receive alerts when your debit card is used, approved or exceeds the transaction controls set by you.
- Stay informed of potential fraud with alerts on attempted, declined transactions.

Control Spending

If you're trying to establish or stick to a budget, CardValet® can help. Set spending limits for general use or specify thresholds by merchant types, such as gas, groceries or retail stores. You can also establish these controls by location. The flexible app lets you change these parameters anytime with ease via your mobile device. Going on vacation? Holiday shopping? Simply update your transaction controls to fit your spending needs.

Fraud Protection

A lost or stolen card is just one area of concern in today's world where identity theft, skimming and other attacks are an unfortunate reality. Turning your debit card off when you're not using it helps safeguard against fraud. When your card is "off," no withdrawals or purchases will be approved. Transaction controls that allow your debit card to work only in specific locations or geographic areas, add another layer of protection. And real-time alerts keep you informed when your card is used or declined.

Review Balances and Transactions

Monitor your finances from anywhere. Use the CardValet® app to check your account balances.
